

# Please remove old Fotos of SRT Targets with background motives

3 D target SRT3d archery targets3D cibles

## Dear Sirs

We kindly ask you to eliminate from your website, catalogs and flyers, any old photos of our targets, made with a background landscape, woodland and especially with the snowy landscapes.

Some backgrounds had been used unwittingly by the photographer, who has produced one of our old catalog, which only in the past two years have been declared as a property with copyright with payment obligation by a company.

This company continues to send letters requesting payment of copyright to various archery shops for photos of our targets for the years 1998-2007. The photographer unfortunately had died, and so we are not able to ascertain the veracity statements of the company.

To avoid you any unpleasant mishaps, our company provides all pictures of the SRT Targets devoid of background, easy to use for all your needs.
